Technology implemented:

- 360 Videos/Immersive 360 Online Activities
- Building interactive open educational resource (OER) content
- AI visual imaging programs (illustrations and video)
- ThingLink
- Vimeo/YouTube
- Drone video

Additional Comments

Thanks to this initiative, we were able to travel to Argentina, the Borderlands of the Southwest United States to gather and film 360 video, still photos and drone video for multiple learning modules, and produce Emmy Award-winning documentaries that resulted in three Emmy Awards. Our work also resulted in at least six academic national and international conferences.
