Project Details

Course Prefix	Course Title	Modality (see reference above)	Instructor of Record	Semester & Year to be Taught
STA2023	Statistical Methods I	W	Nizam Uddin	Fall 2023

Technology implemented:

- Personalized Adaptive Learning (PAL)

We have created contents in eight modules covering all topics of this course. First two modules were used in Fall 2023, first five modules are being used in Spring 2024, all eight modules are now fully ready for use in Summer 2024. Team lead will teach a section of STA 2023 fully online in Summer C and will include all eight modules.
