- Content feedback for instructors
- Instructor queried questions management
- Instructor course management
- Slide show UI for lesson
- Free practice for students
- Control access to person settings
- Visual impairment - colour blind only
- Search across products
- Product settings
- Student collaboration tools

## RELEASE NOTES - SUMMARY

---

### INSTRUCTOR FEATURES

Change	Brief Description	Notes
Question filter	If more than one question is used with submissions for a node then a new question filter will be shown on the submission tab of the node panel to allow the instructor to deal with one submission question at a time.	<ul style="list-style-type: none"><li>▪ New feature</li></ul>
Content feedback	If the appropriate product-level setting is enabled then an instructor will now have access to “Content feedback to review” through the instructor UI.	<ul style="list-style-type: none"><li>▪ New feature</li></ul>
Instructor UI   Publish	The ability for an instructor to publish a product has been implemented for an instructor (from the Content page within a Product). This will cause a background refresh and install/activate to be carried out.	<ul style="list-style-type: none"><li>▪ New feature</li></ul>
Assessments - Question analysis	We have added Question analysis functionality to the Instructor UI. The option will be available when an assessment is selected by an instructor.	<ul style="list-style-type: none"><li>▪ New feature</li></ul>
Content selection	Instructor can ensure that different content is delivered to different students by creating different categories and assigned these to students (e.g. heritage students in languages).	<ul style="list-style-type: none"><li>▪ New feature</li></ul>
Queried questions	Queried questions can now be disabled if an error is found in them, so they are not delivered to students.	<ul style="list-style-type: none"><li>▪ New feature</li></ul>

### STUDENT FEATURES

Change	Brief Description	Notes
Free practice	A new setting has been added to products to allow “free practice” to be enabled for students. This is a practice operation on a node that can be selected by the student and does not involve the application of evidence for the node.	<ul style="list-style-type: none"><li>▪ New feature</li><li>▪ Optional</li></ul>
Visual impairment	A new “Visual impairment” setting has been introduced for “Colour only”. This will not prevent matching, ordering or point/click questions from being delivered.	<ul style="list-style-type: none"><li>▪ New feature</li><li>▪ Optional</li></ul>
Search	A general Search function has been made available from the main Product view. It will integrate with the content search, if this is also enabled.	<ul style="list-style-type: none"><li>▪ New feature</li><li>▪ Optional</li></ul>

Slideshow view	If this option is selected in the authored file for a section in a lesson then this is how it will be displayed to the student.	<ul style="list-style-type: none"> <li>▪ New feature</li> <li>▪ Optional</li> </ul>
----------------	---	---

## COURSE DEVELOPMENT

Change	Brief Description	Notes
Available functions	Added trigonometric functions that take radians as the argument: SinR, CosR, TanR, ATanR, ATanR2	<ul style="list-style-type: none"> <li>▪ Enhancement</li> <li>▪ Optional</li> </ul>
Available functions	Added a function to capital based on sentences: ToCapitaliseSentence	<ul style="list-style-type: none"> <li>▪ Enhancement</li> <li>▪ Optional</li> </ul>
Available functions	AddDays, AddMonths and AddYears functions have been added to allow dates to be adjusted.	<ul style="list-style-type: none"> <li>▪ Enhancement</li> <li>▪ Optional</li> </ul>

## ASSESSMENTS

Change	Brief Description	Notes
Assessments	<p>Normally when questions are answered correctly in an assessment this will affect the mastery score on the node from which the question was taken, but does not mark the node as complete.</p> <p>We have added a new option to assessments to indicate that the scores (per node) should be used to mark the nodes as done. This will occur if the score is above a specified threshold, or if no threshold is specified then the default pass rate will be used.</p>	<ul style="list-style-type: none"> <li>▪ New feature</li> <li>▪ Optional</li> </ul>

## REPORTING

Change	Brief Description	Notes
Question answers report	A new column has been added to show the average time spent answering questions.	<ul style="list-style-type: none"> <li>▪ Enhancement</li> </ul>
General	Any reports that include a group (section) option will now present either a group or a person option to allow a	<ul style="list-style-type: none"> <li>▪ Enhancement</li> </ul>

	person to be selected directly without selecting a group first.	
General	The layout of reports has been updated for greater clarity and readability.	▪ Enhancement

## PRODUCT SETTINGS

Change	Brief Description	Notes
General search	<p>A new product level setting has been added in the <i>More advanced details</i> section to control the availability of the new General search functionality in the Student UI.</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Prevent student-directed actions that will involve questions</li> <li><input checked="" type="checkbox"/> Allow general search across the product for students</li> <li><input type="checkbox"/> Allow free practice for students</li> </ul>	<ul style="list-style-type: none"> <li>▪ New feature</li> <li>▪ Optional</li> </ul>
<i>I don't know</i> question option	<p>Hide the 'I don't know' option for questions delivered to students.</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> Allow free practice for students</li> <li><input checked="" type="checkbox"/> Hide the I don't know option when delivering questions</li> <li><input type="checkbox"/> Deny access to product if IP rule condition is not met</li> </ul>	<ul style="list-style-type: none"> <li>▪ New feature</li> <li>▪ Optional</li> </ul>
	<p>A new setting has been added to products to allow the objective level progress metric to be hidden on the Objective overview page for students.</p>	<ul style="list-style-type: none"> <li>▪ New feature</li> <li>▪ Optional</li> </ul>
In development	<p>To assist with QA, it is now possible to indicate that a product is in development. When this is done, an instance of all questions will be delivered when generating lessons.</p> <p>You can indicate that this product is still in development; this means that all questions will be delivered when generating lessons. This setting will not be copied to versions.</p> <ul style="list-style-type: none"> <li><input type="checkbox"/> In development?</li> </ul>	<ul style="list-style-type: none"> <li>▪ New feature</li> <li>▪ Optional</li> </ul>
